01 Executive Summary & Vision

Modern educational institutions face unprecedented operational complexities. Administrative staff are overwhelmed by fragmented software systems, manual fee reconciliation, paper-heavy compliance reports, and disconnected communication channels with parents.

CampusFlow resolves this institutional fragmentation by delivering a single, unified, web-native intelligence platform that connects every stakeholder: Trustees, Principals, Teachers, Accountants, Librarians, Students, and Parents.

Operational Workflow Synergy

Zero Role–Leakage Guarantee: Every API transaction and state mutation is strictly isolated. Students cannot view evaluation rubrics or answers before release, parents cannot access other children's financial records, and faculty view only their assigned class divisions

03 Academic Intelligence & Examination Proctoring

CampusFlow combines cutting-edge generative AI with rigorous exam security to empower teachers and maintain uncompromising academic standards.

Gemini AI Question Studio

Autonomous, curriculum-aligned question generation powered by multi-model Google Gemini infrastructure. Teachers can formulate rich quizzes in seconds.

- ✓ **Teacher Notes & PDF Extraction:** Upload PDF chapters or paste lecture notes; AI strictly restricts questions to the uploaded content.
- ✓ **Diverse Question Archetypes:** Standard MCQs, CBSE Assertion & Reason, Numerical Computations, and HOTS Case Studies.
- ✓ **Cognitive Level Tuning:** Select between Bloom's Recall, Balanced, or Analytical High-Order Thinking Skills.
- ✓ **Step-by-Step Explanations:** Every question auto-generates pedagogical explanations for post-test student remediation.
- ✓ **One-Click Workflow:** Review, fine-tune marks or options, and immediately publish to the active class division.

Online Proctoring Exam Portal

A locked-down, distraction-free environment for institutional assessments with automated digital proctoring checks.

- ✓ **Mandatory Fullscreen Lockdown:** Prevents opening background applications or split-screen notes.
- ✓ **Tab Switch Detector:** Immediately detects window defocus or tab switching, pauses test, and issues audible warnings.
- ✓ **3-Strike Auto-Disqualification:** Upon the 3rd tab switch, the exam automatically locks and submits with a Disqualification Flag.
- ✓ **Status-Coded Question Palette:** Green (Answered), Red (Unanswered), Purple (Marked for Review), Gray (Not Visited).
- ✓ **Proctoring Audit Trail:** Logs student time, violation counts, and integrity rating for teacher inspection.

Proctoring Integrity Guaranteed for Board Standards

Every student submission embeds cryptographic timestamping, question response vectors, and tab-switch violation counters directly visible to teachers in the *Pending Student Review Queue* before official grade release.

Continuous Formative & Summative Evaluation Desk

8-Pending Review Queue

Teachers receive a prioritized queue of student submissions requiring attention, with automated score previews and remark inputs.

Question-Level Analysis

Detailed breakdown of class accuracy per question, identifying conceptual misconceptions across chapters.

CBSE CCE Report Cards

Automated compilation of scholastic and co-scholastic marks into official printable CBSE report cards with school seal.

High Availability AI Fallback Chain: Built with an intelligent model fallback chain (Gemini Flash Lite, Gemini 3.5 Flash, Gemini 3.6 Flash) ensuring zero downtime and sub-3-second response times even during peak school testing hours.

04 Financial Operations & 7th CPC Payroll

CampusFlow digitizes institutional cash flow with an end-to-end fee accounting engine and an audit-compliant staff payroll system designed around Indian statutory requirements.

Fee Counter & Smart Cashier Desk

Streamline bursar operations with high-speed receipt generation and real-time ledger accounting:

- ✓ **Multi-Head Fee Structures:** Tuition, Laboratory, Smart Class, Sports, Annual Library, and Transport.
- ✓ **Instant 80G Tax Receipts:** Print official fee receipts with school logo, receipt number, parent PAN, and total amount converted into Indian Rupee words.
- ✓ **Flexible Installment Management:** Term-wise, quarterly, or monthly schedules with automated late fee calculation.
- ✓ **Defaulters Tracking:** Real-time filtering of students with overdue balances; one-click SMS/Email parent reminders.
- ✓ **Payment Modalities:** Supports Cash, UPI, Cheque, NEFT/RTGS, and Online Gateway transactions.

7th CPC Staff Payroll & Biometrics

Eliminate spreadsheet errors with a fully automated, attendance-reconciled salary computation stack:

- ✓ **Biometric Attendance Integration:** Tracks Total Working Days, Days Worked, Paid Leaves, and Loss of Pay (LOP).
- ✓ **Real-World Salary Stack:** Basic Pay, Dearness Allowance (DA), House Rent Allowance (HRA), Transport Allowance (TA), Medical & Special Allowances.
- ✓ **Statutory Deductions:** Automated EPF (12% of Basic+DA), Professional Tax (PT), and TDS Section 192 deductions.
- ✓ **Certified Printable Pay Slips:** Official salary slips with bank details, UAN/PF numbers, Rupee words, and authorized signatory seals.

05 Implementation Roadmap & Sign-off

CampusFlow follows a structured **4-Week Rapid Deployment Protocol** ensuring zero disruption to existing academic schedules and seamless staff onboarding.

Week 1
Data Ingestion
Import existing student rosters, staff payroll records, and fee structures from legacy spreadsheets.

Week 2
Configuration
Set up CBSE grading scales, fee payment installments, timetable slots, and staff biometric rules.

Week 3
Staff Training
Hands-on workshops for teachers (AI quizzes), accountants (fee counter), and administrators.

Week 4
Campus Go-Live
Institutional switchover with on-site pilot support, parent portal rollout, and system verification.

Enterprise Security & Infrastructure Architecture

**Bank-Grade Security**
AES-256 data encryption in transit and at rest. Strict role segregation prevents unauthorized data exposure.

**99.9% Uptime SLA**
Powered by Google Cloud Firestore serverless infrastructure with automated real-time database backups.

**Device Agnostic**
Fully responsive web client accessible across Windows, macOS, Chromebooks, iPads, and mobile smartphones.
